

Objective: 1 | popSize: 100 | eliteSize: 30 | mutationRate: 0.01 | generations: 500

The graph consists of 25 nodes and 25 edges. The nodes are labeled 1 through 25. The edges connect the nodes in a complex, non-linear fashion, forming a single connected structure. The x-axis is labeled 'X-Coordinate' and ranges from 0 to 200. The y-axis is unlabeled but ranges from 0 to 100.

Progress of Distance Minimization

Progress of Stress Minimization

Initial distance : 2099.4246840742157
Initial stress: 7511.2
Initial objective: 2099.4246840742157
Final objective: 941.0104708259947
Final distance : 941.0104708259947
Final stress: 6829.4
